EDUCATION

The University of Texas at Austin, Austin, TX, USA. 2022-2027
Ph.D Candidate in Statistics at the Department of Statistics and Data Sciences.

- Advisors: Professor Nhat Ho and Professor Alessandro Rinaldo.
- GPA: 4.0/4.0

Ho Chi Minh University of Science, Ho Chi Minh City, Vietnam. 2017–2020
Bachelor of Science in Mathematics and Computer Science, Honor Program.

- Advisor: Professor Dang Duc Trong.
- GPA: 9.75/10.0 - *Summa Cum Laude*.

RESEARCH EXPERIENCE

Microsoft AI, Redmond, WA, USA. Summer 2024
Research Intern.

- Research topics: Applications of Mixture of Experts in Large Language Models.
- Propose a method for selecting crucial attention heads in the multi-head mechanism based on the routing strategy in mixture of experts to improve the efficiency of the Large Language Models.

The University of Texas at Austin, Austin, TX, USA. 2024-Present
Graduate Research Assistant.

- Research topics: Towards Understanding Mixture of Experts: From Theory to Practice.
- Supervisors: Professor Nhat Ho and Professor Alessandro Rinaldo.

VinAI, Hanoi, Vietnam. 2020–2022
AI Research Resident.

- Research topics: Optimal Transport theory and its applications in Domain Adaptation.
- Skill gained: Did research on Optimal Transport (Sinkhorn algorithms, Barycenter computation, etc) and applied them to study Data Shift and Label Shift problems in Domain Adaptation.

RESEARCH INTERESTS

My research focuses on theoretical foundations for the Mixture-of-Experts (MoE) models where I study the effects of different gating functions (namely the softmax gate, the top-K sparse gate, the dense-to-sparse gate and the sigmoid gate, etc) on the convergence behavior of expert estimation. Based on insights from these results, I aim to design novel gating functions and characterize expert networks which help improve the efficiency and scalability of the MoE applications, including Large Language Models, Multimodal Learning and Parameter-efficient Fine-tuning (including prompt-based tuning and adapter-based tuning). Additionally, I am also interested in Optimal Transport theory.

Teaching Experience

The University of Texas at Austin, Austin, TX, USA.
Teaching Assistant at the Department of Statistics and Data Sciences.

- SDS302F - Foundations of Data Analysis. Fall 2022
- SDS322E - Elements of Data Science. Spring 2023
- SDS320E - Elements of Statistics. Fall 2023

Professional Services

Program Committee/Reviewer at

- the Electronic Journal of Statistics (EJS).
- the Transactions on Machine Learning Research (TMLR)
- the International Conference on Machine Learning (ICML) 2022-2025.
- the Conference on Neural Information Processing Systems (NeurIPS) 2022-2024.
- the International Conference on Artificial Intelligence and Statistics (AISTATS) 2022-2025.
- the International Conference on Learning Representations (ICLR) 2024-2025.
- the Association for the Advancement of Artificial Intelligence (AAAI) 2025.

Honors and Awards

- Top Reviewer at NeurIPS 2024. 2024
- AISTATS 2024 Registration Grant. 2024
- ICLR 2024 Travel Award. 2024
- NeurIPS 2023 Scholar Award. 2023
- Doctoral Fellowship of the University of Texas at Austin. 2022

Technical Skills

- *System*: MacOS, Linux, Windows.
- *Programming Languages*: Python (Pytorch, Sci-kit Learn, Numpy, Matplotlib), R, MATLAB.
- *Softwares*: LaTeX, Microsoft Offices.
